Commissioner For Patents

P.O. Box 1450

Alexandria, Virginia 22313-1450

Sir:

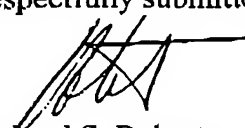

Renewed Petition is hereby made for the grant of Letters Patent for the above identified application. A Petition was filed on October 17, 2005 under the provisions of 37 C.F.R. 1.47 since the inventors of the above-identified application, namely Vladimir Balyberdin and Roudolf Gorelik either refuse to join in the application for patent, or cannot be found or reached after diligent effort, and they have not signed the required Declaration For Patent Application after request to do so.

A Decision dismissing the Petition without prejudice was mailed on April 26, 2006 designating a two month period for submitting any renewed petition.

In the meantime, both of the inventors have been located and have signed the requisite Declaration/Power of Attorney and the same is submitted herewith. Since all of the

application requirements have now been met, it is requested that this application now be substantively examined. No additional fee is due in connection with this request. However, the Commissioner is authorized to debit deposit account 18-1589 for any additional fees due in this regard, or credit such account for any overcharge.

Respectfully submitted,

Richard S. Roberts
